MongoDB Basics for Students 🔗
Python - Guvi 🔗
500 Difficulty rating - CodeChef 🔗
SQL - Oracle Academy 🔗
AWS Cloud Foundations 🔗

EXPERIENCE

Codeway Solutions 🔗
Web Developer Intern   **February 2024 - March 2024**

Successfully completed a virtual internship at Codeway Solutions as a Web Developer Intern, contributing to projects like a portfolio site, landing page, and calculator. Gained practical experience in frontend development while strengthening proficiency in modern web technologies and responsive design.

PROJECTS

Cookify   🔗   **July 2025**

Developed a responsive web application that generates curated recipes based on user-selected leftovers. Implemented a dynamic selection flow (Leftover → Type → Recipe) with a clean, interactive UI and navigation using React Router. Focused on enhancing user experience through hand-crafted recipe data and mobile-friendly design.

Portfolio   🔗   **January 2025**

Created a Portfolio website using React JS and Tailwind CSS as my first professional project. It showcases the user's experience, skills, projects, services, and achievements while providing an easy and interactive way for visitors to connect through the contact section.

Hotel Website   🔗   **December 2024**

Designed a website for a Hotel named "FoodEat" using React JS and Tailwind CSS. This website serves as a landing page, enabling users to explore the hotel's features, amenities, services, and offerings in a visually appealing and user-friendly way.

Travel Agency   🔗   **January 2024**

Designed a website for Travels named "Travel Agency" using HTML and CSS. This website helps users to view different varieties of travels and tours. Users can able to book their choice of packages. Users can also give their details via enquiry page.
